## THE ORIGINAL HOOD LIFT

EASY AND FAST RANGE HOOD INSTALLATION

## EASY RANGE HOOD INSTALLATION

The Hood Lift turns a range hood installation into a one-man job. Forget about the hassle of two men holding the range hood as another man works around them to fasten the hood to the wall or ceiling!

It can hold up to 200 lbs, expand to 36 inches high and 68 inches wide. This tool has been designed to effectively and efficiently install range hoods.

UNIT: 17 1/2 lbs || WIDTH: 7" - 68" || HEIGHT: 23" - 36" || DEPTH: 24" - 29" || CAPACITY: 200 lbs

## LABORSAVING, LIGHTWEIGHT

- >> Reduces the experience and training required for difficult installations, eliminating the need for tedious measuring and layout template work.
- >> Sturdy lightweight aluminum framework collapses to a small portable 17 1/2 pound package but can expand to support the largest of range hoods.

## INTUITIVE, INSPIRED BY INSTALLERS

- >> Allows meticulous placement of range hood and ductwork, confirming height, alignment with range, adjacent appliances, countertop, cabinets, and backsplash before final fastening.
- >> Provides for an installation preview ideal for getting home owner/builder approval.

## FLEXIBLE, FUNCTIONAL

- >> Works with Island Mount, Wall Mount, and Under-Cabinet Range Hoods.
- >> Reduces the chance of property damage and physical injury that can occur during installation.
- >> Entirely self-contained, there are no parts to lose.
- >> Allows range hood to be set in place with or without the range installed.

## TIMESAVER, TRANSPORTABLE

- >> One person can complete most installations that would otherwise require up to three people (quick return on investment).
- >> To protect and carry the Hood Lift effortlessly, a custom carry bag can be purchased.

Fully self-contained  
(no parts to lose)

Rubberized feet & arms  
protect the countertop, range,  
stove, & hood

Centering locators secure  
Hood Lift in range opening &  
aid in centering range hood

Arm extensions for extra  
height & depth reach

Fine adjustment leveling feet

Integrated height indicators

Locks in the collapsed position  
for easy transport
